DETAILED ACTION

This action is responsive to the amendment filed on February 3, 2005. Claims 1-29 are pending. Claims 1-7, and 25-26 represent a method of maintaining a session connection. Claims 8-24 and 27-29 represent data addressing.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, and 25-26 are drawn to a method for establishing keeping session connection, classified in class 709, subclass 227.
- II. Claims 8-24, and 27-29 are drawn to a method for data addressing, classified in class 709, subclass 245.

Inventions in Groups I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are session establishing by using (1) keep-alive messages and (2) network address translation.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to the office of Mr. Dan Hu Registration No. 40,028 on April 19, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Time for Response

Under 35 U.S.C. 133 a shortened statutory **period to reply to this Office Action is set to 30 (thirty) days.**
